Project Spotlight

This past fall, we were moving into a newly built home so we had a lot of windows to cover. We needed ideas for every room in our house. Cathy D. from American Drapery, Blind & Carpet came over during construction and she was so friendly and helpful. Her professionalism and knowledge of the products and trends were greatly appreciated. In short time, we had styles and colors picked out and she was able to help me imagine what each room would look like.

We are very satisfied with the entire process and would highly recommend your company and products. Thank you for making our windows look perfect.

Sincerely,

Tasha B.

American Drapery Workroom

Did you know American Drapery, Blind & Carpet has fabricated custom window treatments locally in Renton, Washington for over 30 years? We own and operate a custom drapery workroom and separate blind and cellular shade manufacturing facility, both staffed by expert employees - many of whom have worked with us over 15 years! It is their hard work, quality craftsmanship and amazing dedication to their jobs that have set our products & service apart from the competition for many generations. And since we fabricate many of your window treatments locally, we can provide them faster so you can begin enjoying them sooner.

We fabricate all types of custom draperies including standard pinch pleated, rod

& continental rod pockets, grommets and inverted box pleats. Top treatments are another specialty of ours, including custom designed and fabricated scalloped valances, swags & cascades and countless styles of decorative cornice boxes. In addition, we manufacture custom bedding, pillows and other decorative accessories.

Whether your next project consists of one valance for a bathroom or a whole home of custom lined draperies with sheers, let us help you manage it from start to finish. With our custom design and fabrication capabilities, the options are truly limitless! If you can envision it, we can build it. Call today to schedule your complimentary in-home consultation, or visit us online at www.freeinhome.com for more information.

Flooring: The Importance Of Carpet Pad

Much attention and energy is devoted to selecting carpet, but pad is a crucial part of your flooring and should not be forgotten.

Pad makes carpet feel better.

Every step you take creates hundreds of pounds of pressure per square inch on your floor covering. Carpet padding, or cushion as it is sometimes called, helps alleviate that pressure. The decrease in pressure helps make your carpet feel richer, thicker, and softer.

It will make your room quieter & warmer.

Carpet cushion can significantly improve a carpet's sound-absorption and improve its thermal insulation properties.

It will help you keep your carpet cleaner.

Dirt can grind down carpet fiber the way sandpaper wears down wood, and thus shortens carpet life. A quality cushion makes cleaning more efficient because it raises carpet off the subfloor and provides an air

space underneath, allowing the carpet to breathe. When you vacuum, that space allows more air to come up through the carpet, carrying more dirt along with it. The result is more effective cleaning every time.

And most importantly, it will make your carpet last longer.

A quality carpet cushion helps decrease pile crushing, the acute compression of fibers in a high-traffic area, particularly in hallways. The pad allows the carpet to maintain its pile height and stay looking new for much longer. Industry studies have shown that quality cushion can actually increase the useful life of carpet as much as 50%.

Also, placing a quality cushion under your new carpet is often a condition of your warranty.
